Baron Rollerball Pens are Simply Beautiful

If ease of use and beauty are what your looking for in a Roller Ball ink pen, try one of Lanier's new Baron Rollerball Pens. Our newest smooth operating Baron Rollerball pens not only are extremely easy to use, but everyone who owns one will make a lasting impression. They are very comfortable to use and feature ultra-smooth and durable threading. Available in both Titanium Nitride Gold and Rhodium plating.

In addition to the handmade and hand polished body, our ink pens ease of use and smooth writing is complimented by the Metal Body Schmidt 5888 Safety Ceramic Tip Rollerball ink refills. When you write with one of our Baron Rollerball pens, you'll feel like it's gliding across the paper making writing effortless and artistic.

Our ink pens are handmade from one of over sixty hardwoods from around the world. These exotic woods give your pen a look of its own, no matter if the wood is from the outback of Australia, jungles of Asia, frontier forests of the United States or plains of Africa. Hand turned and hand polished, your pen will have a beautiful gloss finish adding to the rollerball pen's durability and long use.

We have also enhanced the beauty of your ink pen by using Titanium Gold plating or Rhodium for added durability. Our rollerball pens feature a removable cap that screws on to the front or end of the pen.

If you'd like to personalize your Baron Rollerball Pen for yourself or as a gift, you can also have your pen engraved, in addition to a beautiful gift box available in either Maple or Rosewood. You can also order a matching Fountain Pen to make your gift or collectible even more special.
